TRANSMISSION  
INNOVATIONS INC.

# C - Channel Transmission Timber Ordering System for CH800 (167-287 kV)

Complete and fax to:  
778-285-8497

TI - CH - - - - - B - - - - - X

Voltage	
287	= 287 kV
230	= 230 kV
167	= 167 kV
xxx	= custom voltage*

Replace xxx with voltage of your requirement.

Length	
46'	= 287 kV
38'	= 230 kV
34'	= 167 kV
xx	= custom length*

Replace xx with length of your requirement.

P - Enhanced UV Protection

L - Lifting eyes required

?? - Two letter Utility Code

**Size of hole required**  
e.g. For 5/8" use 11/16" hole, for 3/4", use 13/16" hole

For any design or specification questions, contact Ralph Ulm at 778-285-8447 or email: ralph@transmissioninnovations.com

NOTE: Engineering drawings and drill hole pattern drawings must accompany the order form. TI schematic drawings will be forwarded to ordering Utility/Contractor for approval, prior to manufacturing. Order of raw materials and commencement of manufacturing is subject to Utility/Contractor approval of all drawings first. Patent Pending.
